

Identify the Grazer

Duration: 5-10 minutes

Group Size: variable

Setting: classroom

Goals:

Students will:

Learn rangeland animals forage habits.

Materials Needed:

- Worksheet or Display
- Student Handout “Identify the Grazer”

Process:

From the provided synopsis of some rangeland animals and their diets, have students identify from a provided list of rangeland animals whether each animal is a grazer (G), intermediate feeder (N), or browser (B).

Variations

The activity can be done in a variety of group sizes utilizing individual worksheets or class display. Also, rangeland animal list and background can both be expanded.
