

Rangeland Plant Scavenger Hunt

For each of the following categories, find and take a picture of at least two of the listed plant characteristics.

Rangeland Plants:

- Grass
- Grass-like
- Forb
- Shrub

Life Span:

- Annual
- Perennial

Leaf Type:

- Simple
- Compound Palmate
- Compound Pinnate

Leaf Arrangements:

- Alternate
- Opposite
- Whorled

Leaf Shape:

- Linear
- Elliptic
- Lanceolate
- Oblanceolate
- Ovate
- Obovate
- Palmate

Leaf Margins:

- Lobed-pinnate
- Lobed-palmate
- Entire
- Serrate
- Sinuate
- Involute

Leaf Venation:

- Pinnate
- Palmate
- Netted
- Parallel

Stems:

- Hollow or Pithy (Grasses)
- Solid not jointed, triangular (Sedges)
- Solid not jointed, round (Rushes)
- Solid (Forbs)
- Woody Solid (Shrubs)
- Rhizome
- Stolon

Roots:

- Fibrous
- Taproot

Inflorescence Types:

- Spike
- Raceme
- Panicle
- Umbel
- Head

Flowers:

- Stamen (anther, filament)
- Carpel (stigma, style, ovary)
- Composite Head
 - Ray Flowers
 - Disk Flowers
