

Fill in the Blank: Forage Demand of Animals

- Calculate how much forage an 800 pound cow eats each day.
- Calculate how much forage a 1,200 pound horse eats each day.
- Calculate how much forage a 3 pound rabbit eats each day.

RUMINANTS

Eat _____ of body weight/day in dry matter of forage.

HIND-GUT FERMENTERS

Eat _____ of body weight/day in dry matter of forage.

How much food do Animals eat *a day*?

A _____ pound cow eats _____% of its body weight each day. In one day, it will eat _____ pounds.

A _____ pound horse eats _____% of its body weight each day. In one day, it will eat _____ pounds.

A _____ pound rabbit eats _____% of its body weight each day. In one day, it will eat _____ pounds.
